CUTLERY

We offer a range of the finest cutlery shapes, from simple to ornate, traditional to contemporary, along with speciality items such as serving gear and steak knives in various grades of S/Steel.

18/10 S/Steel contains 18% chrome and 10% nickel. Therefore 18/10 provides great protection against corrosion, scratching and assists with longer lasting brilliance and shine.

Superior cutlery products made in Italy since 1929. Specifically made with quality S/Steel intended for modern catering.

GLASSWARE

A wide offering of quality glassware specifically designed for the food service industry. From lead-free crystal glass to stemware and speciality cocktail glasses.

Our products are sourced from reputable manufacturers and are suited for any occasion whether formal or casual.

Bormioli Rocco has been manufacturing glassware in Italy for over 200 years. The designs range from classic and refined to bold and colourful, adding personality to any establishment. Each piece is crafted using innovative materials and advanced techniques to ensure elegance, durability and superior drinking experience.

A - LASER CUTTING

A very uniform and linear rim is achieved by using a laser beam and improves quality of the product.

B - REDUCED THICKNESS

Excellent distribution of glass around the rim and along the sides.

C - STAR GLASS

Superior to traditional lead-free crystal glass. A totally transparent ultra clear glass. The glass composition and production process has increased resistance to breakage by 30%.

D - PULLED STEM

The stem is pulled from the same gob of molten glass as the bowl ensures elegant shapes, ultra-high strength and flexibility. The glass too now no longer has a weak point.

INFINITY COLOUR

Process of colouring glass during production phase. Colour remains unchanged throughout the lifespan of the glass. Dishwasher safe.

SECURE EDGE

Thermal process to strengthen the rim of the tumbler As a result of this process the rims will be up to 2 times more resistant to mechanical shock than non toughened rims.

STACKABILITY

Space saver shapes designed to economise on storage and transport through stacking.

EXTREME RESISTANCE

Toughening technology/tempering (rapid surface cooling), makes the Bormioli 2.5 x stronger than normal glass. Safe for intensive use and resistant to thermal and impact shock.

FLAT BASE

Guarantees maximum stability on the table and perfect drying.

SALT AND PEPPER MILLS

Manufactured in France since the early 1800's - Peugeot mills are a testament to centuries of craftsmanship and innovation. Peugeot mills carry a lifetime limited guarantee on the mechanism. Mills are sold empty.

Salt in mill should be 4mm or less and pepper 5mm or less in size
